Jeff Awe
Fall 2026

I would like to start off thanking all of you for your prayers this last year. There have been lots of changes both at GHH and at home.

One of the greatest changes was the birth of a new grandchild. Nickolas Strider Knobloch was born on September 3rd to Kendra and Nick Knobloch. Weighing in at 9lb. 9oz. and 22 ½in. long. What a blessing!

Steph and I are in our thirteenth month of marriage and have a wonderful time learning more about each other every day. In between working on the Reach More Project and getting used to new routines, everything is going great. We were able to take a few trips on her days off with her family and then on our first anniversary to the Upper Peninsula for four days in September. The weather was absolutely beautiful for all the things we wanted to do. We visited both upper and lower Tahquamenon Falls, Pictured Rocks, the shipwreck museum and glass bottom boat shipwreck tour.

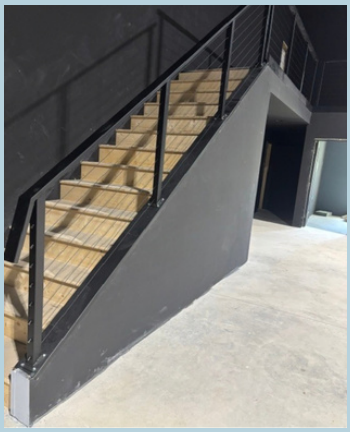

Also, for our anniversary, Steph took me to dinner and then out to a glass blowing class where we made our own drinking tumblers. What a great experience!

The Reach More Project is nearing completion. In the studio, the electrical work and painting has been completed, doors are hung and the side rooms are ready for ceilings, flooring and trim. The boiler is installed and up and running. The new railing along the mezzanine and stairs is finished and looks great.

As this is being written, the concrete floor and outside apron for the bus and trailer garage is being completed. The permanent lighting for the garage area will be installed in two weeks, once the floor is set. There will be a few things to complete and then the final inspection. This project has taken three years, but we have only proceeded as the Lord provided. As of this date, the Reach More Project is paid for from the gifts of God's people. Thank you again for your ongoing prayers and your faithful giving. Soon we will truly be able to Reach More children and adults with the truth of God's word through our internet outreach and continued live interaction. The Lord bless.

In His Service,
Jeff & Steph
